The Biggest Value of All

EXTRA SPECIAL

CUT FLOWER MIXED

This mixture contains about 10% Primulius and the balance named varieties, such as America, Mrs. F. King, Chicago White, Halley, Pendleton, etc., etc.—early, mid-season and late varieties—and is just the thing to plant in quantity for cut flowers.

Priced to move 250,000 of them—50c per dozen, \$1.35 per 100; \$12.50 per 1,000, prepaid anywhere in the United States.

WATERLOO MIXED

This is not really a mixture at all, but is an assortment of ten or more varieties carefully selected. Just the thing for those not yet acquainted with the names but want some really good Glads. This will contain some surprises for you.

Specially priced at 50c per dozen, or \$1.85 per 100, or \$18.50 per 1,000. Prepaid anywhere in the U. S.

Let us have a trial order and you'll see why we grow nearly thirty acres of Glads.

ORDER EARLY

That's my advice. For though we have a very large stock it will go fast and the rarer ones will be the first to be sold out and orders must be filled in rotation. You'll never go wrong by ordering early—you might be disappointed if you should order late.

We do not substitute without your request.

Guarantee

After you once order from us you'll need no guarantee.

We do nothing but grow and sell Glad Bulbs—we do it well, as is testified to by hundreds of delighted patrons. One writes from Maine: "Bulbs received last spring have been wonderful. Please send price list; want 10,000 to 15,000 this fall." And we have many other letters equally good, but not quite so concise.

To make it short—if you are not happy with your purchase, notify me within ten days of receipt of shipment and you can always have your money back quick.
